## April 29th Is Date For Sugar Company Celebrations

CLEWISTON—In celebration of one of the most successful sugar seasons in recent years, the United States Sugar Corporation plans to stage a Harvest End Festival which will be open to the public and held in the Civic Center Park at Clewiston, Saturday, April 29.

A King and Queen of Sugar will be crowned in a colorful ceremony and they will be selected by popular vote.

In earlier days the Harvest End Festival was an employee affair with barbecue and dances held to celebrate the event, but this year under an expanded program the public is invited to participate and scheduled events for the festive occasion should bring folks from all sections of the state.

It is planned to rope off Sugarland Highway for street dancing and the State Road Department has been contacted for permission to temporarily close the highway for the occasion. The Clewiston City Commission has provided lighting facilities for the evening events.

Ballooning began this week for the selection of the king and queen.

The usual harvest and barbecue will be held the same day as the coronation and dance, with the company's eastern division holding its party at Bryant, the western division at the sugarhouse in Clewiston.

Commenting on the season's production, executive vice-president H. T. Vaughn said it was impossible to give comparative figures with other years until the actual close of the season but he described the 1949-50 season as one of the best the corporation has experienced as far as tonnage of sugar ground and the amount of sugar produced.

Hurricane damage last fall and a sneak freeze in November took their toll of cane and had it not been for these misfortunes the current season would have set an all-time record.

## Highway Patrol To Erect New Office

Director H. N. Kirkman of the State Highway Patrol told this newspaper last week that work will soon start on the new highway patrol office to be erected in Pahokee. The office will be erected on a lot across the street from the home of Mr. and Mrs. Johnny Thomas. The new building will follow closely the lines and size of the office located just outside of Tallahassee, Mr. Kirkman said.

## Governor Warren Warmly Received Okeechobee City

OKEECHOBEE—Emphasizing flood control, Governor Warren reviewed the accomplishments of his Administration and the Florida Legislature for a crowd which came here from all over the State for Okeechobee's first annual Governor's Day celebration on Saturday, April 15.

While he devoted much of his speech to the progress on the first stages of the big Central and Southern Florida Flood Control Project, the Governor also traced the maze of coordination on all levels of government—local, state, and Federal—that is involved in the workings of modern government.

He told an audience estimated at 6,000 that the Federal government is standing \$2 per cent of the construction cost of the big \$200,000,000 Central and South Florida project, and went on to say that Florida got almost \$42,000,000 in direct grants-in-aid from Washington during the past year. He was warmly greeted by the 4,000 present.

Most states' spending, he said, is one-fifth Federal funds, but in Florida it amounts to one-third of the total of state expenditures.

Telling the Governor's Day gathering that "benefits to the people flow smoothly and naturally when all levels and branches of government are in accord," Warren expressed gratitude to the people "for sending such fine men to the Legislature to work with me."

## Ritualistic Team Wins Top Honors

Last Sunday afternoon the Elks Ritualistic Team carried off top honors in the District Ritualistic Contest, winning out over three other teams, including Fort Lauderdale, who were national champions last year. Those entered were: Pahokee, Fort Lauderdale, West Palm Beach, and Lake Worth.

According to reports from those who saw the contest, all of the teams were excellent, and the margin of points by which the Pahokee team won will probably be small. This fact, however, is no reflection on the team, but rather reflects the general excellence of all the competing teams. All of the losing teams pledged their full support in the State and National Contests.

## George Mead Enters Mayor Race, Pahokee

George Mead, for many years a plumber in Pahokee, yesterday announced his candidacy for mayor in the coming election. Mr. Mead for many years was active in the affairs of the American Legion. He has definite and certain aims and objectives set up for attainment if he is chosen by the majority to the high office of mayor.

T. W. Jenkins of Pahokee is ill at the Everglades Memorial Hospital this week.

## Special Film To Be Shown Methodists

"That Kid Buck" a 35-minute sound motion picture, will be shown April 23rd at 8 p. m. at the Methodist Church in Canal Point. Produced this past summer in and near Muskegon, Michigan, the picture written and production directed by Ken Anderson, Outstanding Christian Writer gives the story of a juvenile delinquent rehabilitated through the influence of a religious summer camp. Youth Haven, near Michigan, specializes in helping underprivileged children, and Boys from the Courts, and the major portion of the film was shot during the camp's annual "Mid-western Training School for Boys."

Buck, the protagonist, comes in to his third scrape with the law.

Due for a major juvenile sentence, he is surprised to learn that the owner of the hardware store he had plundered wants to pay his expenses to Youth Haven. Reluctantly, Buck accepts the offer.

From here on, the film moves into a plot involving Jerry Van Cleve, son of the hardware dealer—and the young outlaw. The climax is reached when Buck, soundly convinced of the error of his ways, finds the Gospel of Christ a new lease on life.

Muskegon law enforcement officials appear in the film, together with Youth Haven Camp personalities.

David T. Jordan, former pastor of one of Michigan's most progressive Churches and now Field Representative for Youth Haven in Florida will personally present this film and tell of this needy work.

## Communication

Mr. Paul Rardin,  
Canal Point, Fla.  
Dear Mr. Rardin:

My dear companion, Rev. T. C. Grigby, passed to his eternal home on April 25, 1949. About three years before his passing, while away from home for a week, I sent him this little poem which he placed in his billfold and kept there until the last. He died as he lived, a Christian gentleman. In memory of our happy life together for 40 years, I would like to put this little poem in The Everglades News:

### YOU AND I

Many years have had their passing  
since we told each other dear,  
We would share life's joy and  
sorrow close together year  
by year.

We have traveled love's good highway  
over hills and through the dales,  
Finding sunshine on the path-  
way, smiling bravely through  
the gales;

Still we're walking on together,  
partners in the game of life,  
Hand in hand and heart to  
heart dear, friends and lov-  
ers, man and wife;

Life could hold no richer blessings,  
as the years pass swiftly by,  
Than to find us still good  
comrades, sweetheart, part-  
ners, you and I.

## Actions Talk Louder than Promises!

Every farmer knows there's a whole of a difference between promising the farmer things at election time, and doing things for him after the votes have been counted. So before you make up your mind about election issues, it's a good idea to check the record:

Claude Pepper was born on a farm, is thoroughly familiar with the farmer's problem...

Claude Pepper sponsored and fought for the Rural Telephone Bill and Rural Electrification Program...

Claude Pepper led the fight for Florida's Flood-Control Program...

Claude Pepper has always backed price supports for citrus, tobacco, peanuts, tung oil, and many others. (His opponent — only last year — voted against maintaining the 90% parity support program in Congress.)

The record tells the story in a nutshell. When it comes to getting things done for the farmers of Florida — Claude Pepper's actions speak louder than anyone's promises — and always have.

You're a good driver! Of course, you step on the gas a little too hard at times, but that's nothing. You've never had so much as a dented fender

in all the years you've been driving! Like most motorists you're a good driver—most of the time. Accidents never happen to you!

**Or do they?**

He was a good driver, too—most of the time. Then one day he stepped on the gas a little too hard and a little too often. This was his very first

(and last) accident. Too bad he didn't learn that accidents can happen to the best driver... if he's careless.

Good brakes make good drivers better. Have your brakes, tires, and lights checked regularly by a qualified mechanic. You

have to see in time and be able to stop in time to prevent accidents. But remember, a car is only as safe as its driver.

Too many drivers think this sign means "slow down and take a quick look." Careless driving habits like this kill hundreds and maim thousands every year.

## Scenic Highway On Dike Proposed

OSCECHOBEE—Governor Warren, main speaker on Oscechobee's first annual Governor's Day, last Saturday, said he has the State Road Department studying the possibility of constructing a highway encircling Lake Oscechobee along the dikes which protect the area from ravaging waves of the lake in storm time.

"The levees and connecting works surrounding Lake Oscechobee can be made to serve a dual purpose," the Governor said. "Physically, these dikes will resemble and actually compare with the fills on which many of our highways are built. I understand the Central and South Florida Flood Control Board and the Army engineers have reached a practical agreement whereby these levees can be designated as highway rights-of-way."

"Therefore, I as Governor already have discussed with the State Road Department the feasibility of building a scenic highway completely around Lake Oscechobee, with connecting roads running from it like spokes in a massive wheel."

Warren, addressing hundreds of persons, spoke after Mrs. Warren unveiled a plaque, commemorating a meeting held at the Courthouse October 6, 1947. Speechmaking over, several thousand families dined on a free fish barbecue. A rodeo, cañish skinning contest, contest singing and dancing followed.

The morning's speakers included B. Elliott, of Pahokee, speaker-designate of the House of Representatives, who discussed flood control legislation. Congressman Peterson and Rogers, both active in obtaining federal funds for flood control, were introduced and Peterson gave a history of flood control legislation.

Arch Livingston, Warren's state motor vehicle commissioner, discussed the "Governor's Safety Program." Alfred A. McKethan, State Road Department chairman, discussed highway needs and the current construction program.

## Cinematic Chatter

By Malcolm Miller

Wanna laff? Well, you can get one of the greatest laffs you had in some time at the Prince Theatre Sunday or Monday when "Adam's Rib" romps its way across the screen.

With Spencer Tracy and Katherine Hepburn pitted together one can expect plenty of clever entertainment in this hilarious comedy.

The question: "Who wears the pants in your family?" is very ably answered in the presentation of this piece.

Tracy was never better than he is in this role and Miss Hepburn is just as clever as usual in the part she has to handle.

Yep, folk, you are in for some real down in the middle laffs when you see "Adam's Rib."

Set you at the movies—Mal.

## George M. Mead ANNOUNCES HIS CANDIDACY FOR Mayor

of Pahokee with the following statement to the citizens:

I am a candidate for Mayor of the City of Pahokee May 2. I am a resident of this city for over 20 years, a taxpayer, a voter, a citizen who has been interested in public service these many years.

I will endeavor by cooperation of all elected officials and appointed personnel to find a means whereby the operation of this city can have a firm financial basis and strictly business administration.

I believe in majority rule but not majority control.

I believe in good administration, enforcement of charter laws and ordinances, recreation, beautification, sanitation, protection and courteous service by elected and appointed officials.

But most of all, I believe the citizens should show an interest in public affairs. A nominal interest at election time is not enough.

I promise a good administration of my office. (Pd. Pol. Adv.)

#### CHURCH OF CHRIST, SCIENTIST

"PROBATION AFTER DEATH" is the subject of the Lesson-Sermon which will be read in Churches of Christ, Scientist, throughout the world on Sunday, April 23.

The Golden Text is: "God hath both raised up the Lord, and will also raise up us by his own power" (I Cor. 6:14).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Now that the dead are raised, even Moses shewed at the bush, when he calleth the Lord the God of Abraham, and the God of Isaac, and the God of Jacob. For he is not a God of the dead, but of the living: for all live unto him" (Luke 20:37, 38).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Sci-

ence and Health with Key to the Scriptures," by Mary Baker Eddy: "In the illusion of death, mortals wake to the knowledge of two facts: (1) that they are not dead; (2) that they have but passed the portals of a new belief. Truth works out the nothingness of error in just these ways" (251:8-12).

### CHURCH OF THE HOLY NATIVITY (Episcopal)

Ronald Lane Latimer, Priest

April twenty-third will be "Friendship Sunday." The Holy Eucharist, to be celebrated at 11 o'clock, is being offered for Christian Unity.

In order to promote understanding of the Episcopal Church in the community at large, Father Latimer and the congregation of Holy Nativity are extending a special invitation to everyone, of whatever religious affiliation, to attend this Sunday.

Representatives of the Vestry and the Women's Auxiliary are to be on hand to greet visitors and distribute leaflet guides to the Communion service. (These convenient and informative outlines, which may be taken home afterwards, make it possible for anyone to follow the service easily.)

After church, members and their guests will be entertained at a covered dish luncheon at the home of Mr. and Mrs. Norman Kennedy on Canal Point Road.

During the coming week, celebrations of the Eucharist which usually take place on Tuesday and Thursday at 9 a. m. will be omitted because of the Diocesan Convention meeting at Holy Trinity, West Palm Beach, while the Vicar will attend.

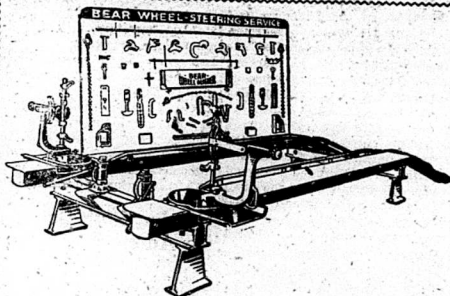

Next Sunday the Rt. Rev. Henry I. Louttit, Bishop Coadjutor of South Florida, is expected to be present for the 11 o'clock service at Holy Nativity.

#### CARD OF THANKS

## Come to Church

The churches of the Everglades extend a warm welcome to every person to attend church on Sunday. You'll get a deep satisfaction out of attending the church of your choice. With the beginning of a New Year there is no better time than NOW to make a resolution to do a better job attending church in 1950 than you did in the year past. You'll personally enjoy the wonderful messages of faith which are in store for you during this good year ahead. Today, make a resolution that one hour out of the week's 168 will be devoted to church services. Can you do less? Watch the columns of The Everglades News for church announcements weekly. The Lake Region is blessed with a group of fine churches. Your attendance will make the work of these churches more successful.

## Sugar Company Season Is Success

One of the most successful sugar seasons in recent years will come to an end next Saturday, April 22, according to the announcement of H. T. Vaughn, executive vice-president and general manager of the corporation.

Mr. Vaughn said that it would be impossible, until the season had ended or was a little closer to an end, to give comparative figures with past seasons but he described the 1949-50 season as one of the best seasons the corporation has had so far as tonnage of sugar ground and the amount of sugar

produced.

Comparative figures, Mr. Vaughn said, may be available next week. Hurricane damage last fall and a smoky freeze in November, both of which did most damage in the Eastern Division, took their toll of cane and had it not been for these disasters the current sugar season would, undoubtedly, have set an alltime record.

Contract growers, also, after a couple of rough seasons, are well pleased with tonnage and sugar content of their cane this season. Most of these growers had little storm or freeze damage.—Chewlston News.

## Convention Will Be Held By Episcopalians

The Episcopal Diocesan Convention to be held at Holy Trinity Church, West Palm Beach, on Tuesday through Thursday of next week, April 25-27, will draw clergy and laymen from parishes and missions all over South Florida.

The Church of the Holy Nativity, Pahokee, will send as its official lay delegate Dr. Thomas Bregger, Vestar Senior Warden, with Otto Blech, Junior Warden, as alternate.

The Vicar, the Rev. Ronald Lane Latimer, also expects to attend, as do several other members of the congregation.

## Speers To Attend Family Reunion

Mr. and Mrs. H. L. Speer will go to Leslie, Ga., for the week end to attend a family reunion and birthday party for Mr. Speer's father and mother who will be 83 and 73 years old respectively this week. On January fifth next they will have been married 60 years and now are the only couple to have reached this age living in that immediate section of Georgia.

## Surplus Food Is Piling Up In U. S.

Huge Surplus of farm products are being piled up by price supports. The major share of these are the storable grains and cotton, but the government bins and caves are filled to overflowing with many other products also.

The give-away programs have helped to get rid of some of the potatoes, dried eggs, etc. We "sold" a big portion of the dried eggs to England for 3 cents on the dollar—we "sold" one-third of the dried milk to the Dutch for their hogs. Yet the products keep piling in faster than they can be given away.

The storage bill on government-owned surplus is one-half million dollars a day.

According to the latest report of the Commodity Credit Corporation, the government either owned directly or had under loan over 4 billion dollars worth of farm products at the end of February.

Big Imports of farm products already in surplus are coming into the U. S. from foreign countries. Most are brought in under "deals" of the State Department. Once again, agriculture bears the brunt as tariff gates are opened.

Forty-five million dollars' worth of foods already in surplus in this country were imported from July to November, 1949.

Dried eggs, equivalent to 90 million dollars, were brought in from Communist China.

Twenty million bushels of potatoes from the 1949 Canada crop came in—responsible for nearly half the U. S. spud surplus.

There has been a big increase in pork imports. Over one million pounds came in last January—Polish hams and canned.

Mrs. Frank Friend, president-elect of the State Federation of Woman's Clubs, will leave Sunday as a delegate from the Pahokee Woman's Club to attend the State Federation Convention to be held in Tampa this coming week.

Harry M. McIntosh, who was elected a member of the executive council of the Florida Bankers Association, was further honored when he was recently elected a member of the FBA Agricultural Committee.
